

**Position:**

Senior Technical Architect

Description:

SBLM Architects seeks a Senior Technical Architect with 10+ years of professional experience to join our New York office working on complex projects.

The individual will be viewed as a technical expert as it relates to design sensitivity, construction detailing and building codes.

Job Responsibilities:

- Onsite presence, coordination and communication with our design team.
- Understand complex functional, technical and architectural issues.
- Document production and detailing for projects.
- Provide coordination and review of RFI's, contracts, and construction documents.
- Drive architecture design in projects providing insight internally and to clients.

Requirements

- At least ten years solid experience in a similar capacity with a New York architectural firm
- Knowledge of codes and industry standard guidelines
- Strong technical aptitude and able to produce construction document sets
- Professional Degree in Architecture
- Must be proficient with AutoCAD and Revit
- Strong written and verbal skills
- Capable of working in a team environment

Compensation and Benefits:

We offer a competitive salary.

Our benefits include medical, dental, 401k Retirement Plan, Long Term Disability and flexible spending plan.
